

April 1, 2020

If you have face book, please check the Town of Warren page for updates as we all are being impacted by the current situation and webpage. Web:warrenindiana.us

Facebook: Town of Warren,Indiana

Warren Town Hall is closed to the public. Although staff is in the office, please do not enter.

Payments can be made by mail, credit card payments can be made over the phone, and arrangements can be made to have your payment automatically withdrawn from your bank account on the 10<sup>th</sup> of each month by contacting the office at 375-2656. If you use the bank account method it can be started and stopped at any time. For April, payment arrangements must be made by April 5. We have several customers already using this method on a regular basis. Of course, payments can always be made through the slot in the front door. If using cash, please use the envelope provided at the door, or your own, and make sure your name is on the outside. Make sure it is the exact amount but if not, any extra will be added as a credit to your account. **We would prefer that a method other than cash** be used such as a money order or check.

Other than closing Town Hall and the Police Station to the public, all other Town services remain the same at this time. We are receiving directives from the Governor and the Federal Government almost daily so the situation can change rapidly. Again, check Face Book and the Web page for updates. If you do have a face book page, share as soon as the message is received and make sure others hear the message. We appreciate everyone who has helped by doing so.

The INDOT reconstruction of SR 5/ SR 218 which had been expected to start in the spring is now

scheduled to begin mid July and be done by the end of August. The project will go through the downtown and will make traffic difficult. Just an early warning.

Stay safe.....and healthyStay Safe....and healthy.
